

AND THEN THEY PRAYED

By Barry Loudermilk

And Then They Prayed tells the true stories of incredible events in America's history that were altered or influenced through the awesome power of prayer.

Our history is wrought with challenges that have threatened the future of our nation; but just when all seems lost, our national heroes call upon a powerful weapon that changes the course of events. It is a powerful force that alters weather, gives men incredible courage and protection, and changes the hearts and minds of both allies and enemies. It is the power of prayer.

From the very foundations of our nation, many of our national heroes have placed their faith in Almighty God; and through the power of prayer, have implored His intervention on our behalf.

From the freezing forests of Valley Forge, to the deadly vacuum of space, Americans have fought when their liberty was threatened, stood firm in the face of danger, conquered a fear of the unknown, prepared for battle, and then, they prayed.
